Wine List Introduction

Welcome to the wine list of Café Cru Restaurant. Having spent much of my working life involved with wine, either in sommelier competitions at University or the 32 years that I have worked here, I have tried to create a wine list that has representation from the wines around the world. I am often asked what my favourite wine is and my answer would be that I really do not have one. There are so many great wines made in the world that it depends upon the occasion, what I am eating and the time of year.

I have selected a range of House wines from around the world that offers a variety of grape types to suit many dishes, which are all available by the glass or the bottle.

If you have the time look through the list there are some fantastic wines from both individual family producers to large winemaking companies. They all have their place on our list and I have tasted them all. If you would like to talk about a particular wine or need some help selecting please feel free to ask. However I am a great believer in "Drink what you like, when you like." Wine is all part of the occasion of dining out; the more you enjoy what we have to offer at Café Cru the better the wine will taste, so happy choosing and have a great meal.
